

How to Find out if project is in ESA using Navigate LA

<https://navigatela.lacity.org/navigatela/>

Select tools

Type in address

Type in "ecologic" and look for Significant Ecologic areas for both County and city

**If property is totally within or within 200' of ESA area, and it exceeds 2,500sf of impervious area, you need to submit for LID (Most common).
There are other trigger points for LID but this is the most common.**
